

Safe Shoes Child ID™

Safe Shoes Child ID™ is a unique label that solves the problem of children carrying (not practical) or wearing (not safe) visible identification. Each label has space for 5 phone numbers and 3 names of people a child can call if they are lost or in trouble. Safe Shoes labels empower children because they know they can always get help if needed. In a high stress situation, such as being lost, a child may forget their phone number, or even their parents' names.

Safe Shoes Child ID™ 

Mom: _____ Home #: _____

Work #: _____ Other #: _____

Dad: _____ Work #: _____

Extra #/contact: _____

This child may be lost or in trouble. Please assist by calling contact numbers.

How Safe Shoes labels work:

The parent or guardian:

1. Fills out their contact information with a pen (names, phone numbers)
2. Peels backing off a clear laminate strip attached to the label (not visible in photo)
3. Seals laminate over label to make it tamperproof and waterproof
4. Peels backing off label and sticks it into child's shoe at the bottom.

It's that easy! Safe Shoes permanently adheres inside any type of shoe and cannot be felt by the wearer.

Complete instructions describing how to fill out and apply each label are clearly printed on every label backing. The child's name is not written on the label, for safety purposes.

Specs: 3" x 1"

Material: Paper-thin yet extremely durable vinyl label with permanent adhesive, and an attached clear lamination strip.

Styles: Safe Shoes ID™ Kit with 10 labels (5 pairs) and a pen, or shrink-wrapped in packs of 250 pairs.

Kits and label packs are always ready to ship within 24 hours, orders usually ship the same day!
